DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/16/2004 has been entered.

In response to applicant's amendments and arguments of 7.16.2004 and upon reconsideration of the position taken by the examiner in the FR, the amendment overcomes the rejection as previously presented.

Furthermore, upon review of the remaining claims in the application, with the exception of claim 8, all the rest of the remaining dependent claims now depend from an allowable claim. Hence the previous restriction requirement, made FINAL in the OA mailed 1/10/03 is hereby WITHDRAWN. All claims have been reviewed and are allowable either for the reasons stated in the previous Office actions with respect to claim 8, or because the invention as defined in claim 1 defines over the art of record.

The newly cited references to Wang et al, Belser et al and McDaniel et al are cited as illustrative of alternative prior art MO systems with flying head arrangements, lacking the Magnetoptic device as defined by independent claim 1.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aristotelis M Psitos whose telephone number is (703) 308-1598. The examiner can normally be reached on M-Thursday 8 - 4.
